VISUAL BRAND LANGUAGE FRAMEWORK — ROWAPA

TYPOGRAPHY SYSTEM

Font Usage

Primary Typeface: TASA Bold — for titles, claims, and visual headlines
Secondary Typeface: TASA Regular / Semibold — for body text, subtitles, and descriptive content
Accent Typeface: TASA Explorer Extrabold — for keywords, numbers, or high-impact sections

Hierarchy Guide (in % of canvas height)

H1 – Hero Headline: 5.5–6%
H2 – Section Title: 3.5–4%
H3 – Supporting Title: 2.5–3%
Body Text: 1.6–2%
Caption / Microcopy / CTA: 1–1.4%

Style Tips:

– Consistent line height between 120–140%
– All caps with slightly increased tracking
– Clear hierarchy between sections, titles, subtitles, and body copy

COLOR STRATEGY

Brand Palette

Core Colors:
– Manganese Black (#1D3149)
– Great Serpent (#486EA3)
– Sea Cliff (#A0C4DF)
– Plum Perfect (#AA1351)

Accent Colors:
– Plum Perfect and gradient tones for highlights, buttons, and call to actions

Background Neutrals:
– White (#FFFFFF)
– Pastel Snowbank (#E8E9E9)

Application Rules:

– Light backgrounds for textual pages
– Dark backgrounds for impactful or premium presentations
– Accent colors to guide the eye (interactive elements, focal points)
– Gradients can be used as connectors or movement elements

GRID & LAYOUT SYSTEM

Primary Layout Types:

– Center-Weighted → for claims and strong messages (e.g. HERO PAGE)
– Side-Block → for educational content (e.g. slides, learning)
– Bottom-Centered → for descriptive sections and introductions

Margins & Spacing:

– Generous margins (for a sense of order and quality)
– Modular grid for text + image blocks
– Recommended: 12-column layout for digital

LOGO SYSTEM & SCALABILITY

Logo Structure & Variants

– The main logo consists of a stylized monogram RW forming a shield/tie shape + the ROWAPA wordmark
– Secondary versions include taglines and divisions (e.g. ROWAPA TRAINER)

SCALABILITY & ADAPTABILITY

– The monogram works perfectly as a standalone icon
– Tested on both light and dark backgrounds for optimal legibility
– The color system ensures consistency across all media: digital, print, physical

Application Tips:
– Use light version on dark backgrounds and vice versa
– Compact version for favicon, app icons, repeated patterns
– Extended logo for headers, letterheads, banners
– Logo with tagline only in formal/institutional contexts

✅ DO:

– Respect clear space around the logo
– Use approved color variations only
– Ensure optimal contrast for visibility
– Use the correct version for each application (e.g. print, digital, small size)

❌ DON'T:

– Stretch, distort, or rotate the logo
– Use unapproved colors or effects (e.g. shadows, bevels)
– Add text inside or around the logo
– Change the proportions of the monogram or wordmark

GRAPHIC ELEMENTS & VISUAL TEXTURE

Distinctive Elements:

– The visual language is based on angular forms, sharp lines, and dynamic geometry
– The decorative graphic (derived from the monogram) serves as a frame or pattern, with colored segments moving along axes

EFFECTS & STYLE:

– Clean, modular lines
– No heavy shadows: flat, modern, orderly design
– Light transparencies for overlays

When to use:
– To enrich institutional layouts
– To emphasize direction and dynamism
– As a visual thread across materials (slides, covers, stationery)

PHOTOGRAPHY DIRECTION

Style:

– Professional, warm, authentic
– Contextual shots, real subjects, spontaneous postures
– Prefer natural light, clean backgrounds, symmetrical compositions

✅ DO:

– Teams at work, training in action, genuine interactions
– Detail shots of branded objects and materials
– Recognizable and on-brand locations

❌ DON'T:

– Generic stock photos, fake expressions, cold environments
– Overuse of filters or post-production effects

TONE OF VOICE — VISUALLY EXPRESSED

Visual Mood:

Structured Brilliance:
The visual tone combines structure and creativity, precision and warmth. The brand conveys solidity without being rigid, blending an academic style with a human, open, and fresh touch.

HOW TO USE THIS FRAMEWORK:

This document guides the application of ROWAPA's visual identity across all touchpoints. Maintain consistency between content, tone, and graphic style. For every adaptation, follow this modular system.
